

Orion™ Cloud – Secure, Scalable, and Sovereign

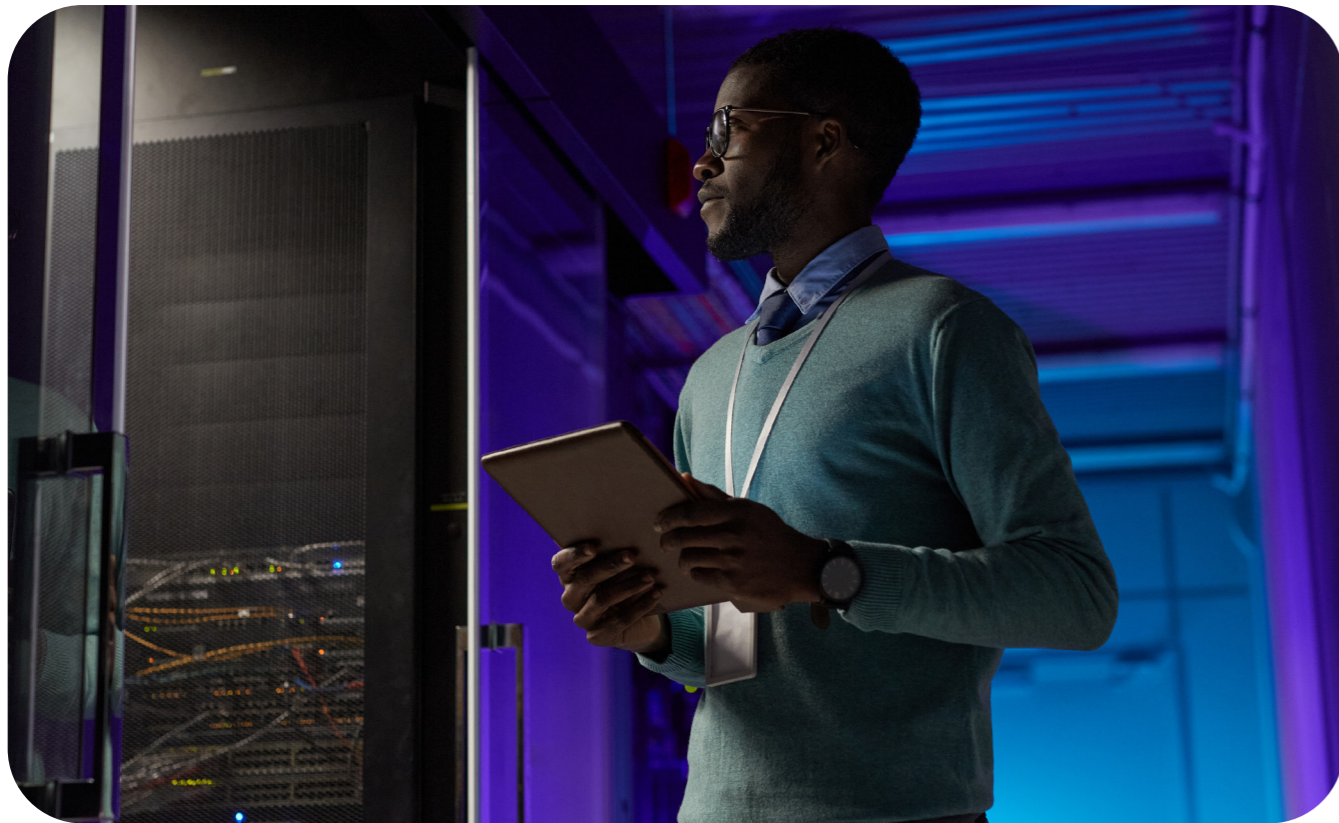

Brochure

Agile by Design. Reliable by Default.

Powering Africa's Digital Future with Intelligent Cloud.

SYNNECT

Synnect (Pty) Ltd © 2025 | www.synnectafrica.com | enquiries@synnect.co.za

Orion™ Cloud represents Synnect's commitment to building Africa's most secure, scalable, and sovereign cloud ecosystem. It is more than infrastructure — it is a strategic enabler for digital independence, operational resilience, and sustainable innovation. Through Orion™, Synnect delivers a dual offering: a world-class cloud platform and expert consulting services designed to help enterprises, governments, and innovators harness the power of cloud computing responsibly and intelligently.

Executive Overview

The cloud has evolved from a storage utility into the backbone of digital transformation. For Africa, cloud computing is more than a technical milestone — it is the foundation for economic growth, data sovereignty, and AI-driven innovation. Synnect's Orion™ Cloud combines intelligent automation, hybrid architectures, and sustainability practices to deliver resilient cloud solutions tailored to Africa's unique context.

Our approach blends Synnect's deep consulting expertise with the agility of Orion™ Cloud infrastructure. This ensures every client can deploy, manage, and scale applications securely, efficiently, and in full compliance with regional data laws.

The Synnect Cloud Philosophy

The Orion™ Cloud philosophy is built around three principles — Secure by Design, Scalable by Architecture, and Sovereign by Purpose. This triad defines Synnect's approach to enabling cloud ecosystems that are reliable, adaptable, and aligned with Africa's data sovereignty vision.

Secure by Design

Zero-trust architecture, continuous monitoring, and identity-first security frameworks protect every workload from the ground up.

Scalable by Architecture

Cloud-native and hybrid designs enable elasticity, portability, and efficient workload distribution across environments.

Sovereign by Purpose

Data remains local, governed ethically, and aligned with national digital policies to ensure compliance and sovereignty.

Core Cloud Capabilities

Synnect's cloud ecosystem unites infrastructure, intelligence, and innovation. Orion™ Cloud integrates modern engineering practices with adaptive automation to deliver secure, reliable, and future-ready services.

Capability	Description	Outcome
CloudOps & Automation	AI-driven orchestration for self-healing workloads, predictive maintenance, and automated deployments.	Reduced downtime, higher resilience, and lower operational costs.
Hybrid & Edge Cloud Infrastructure	Seamless integration across public, private, and edge environments for distributed operations.	Optimized latency and data sovereignty for critical workloads
Cloud-Native Engineering	Containerization, microservices, and DevSecOps enable rapid deployment and scale.	Accelerated innovation and continuous delivery.

Capability	Description	Outcome
Cloud Security & Compliance	Zero-trust security, identity governance, and POPIA/GD-PR-aligned compliance.	Peace of mind through secure, auditable operations.
AI-Augmented Cloud Management	AI-assisted monitoring and predictive scaling powered by Cognify™ AI	Smarter resource utilization and energy efficiency.

Synnect Cloud Consulting & Advisory

Beyond infrastructure, Synnect provides cloud consulting services that help organizations plan, migrate, and optimize their digital ecosystems. Our consultants combine strategic insight with technical depth to ensure every cloud journey delivers measurable value.

- **Cloud Strategy & Assessment** – Align cloud initiatives to business and digital transformation objectives.
- **Migration & Modernization** – Seamlessly transition from legacy systems to cloud-native architectures with minimal disruption.
- **Cloud Governance** – Establish policies, compliance, and performance monitoring frameworks to manage cloud operations effectively.
- **FinOps & Optimization** – Implement cloud financial management and cost visibility while improving sustainability.
- **Innovation Enablement** – Leverage AI, analytics, and platform intelligence within Orion™ Cloud to accelerate digital transformation.

Industry Applications

Synnect (Pty) Ltd © 2025 | www.synnect.africa | enquiries@synnect.co.za

Sector	Use Case	Outcome
Public Sector	National data platforms, e-government hosting, smart city systems	Enhanced service delivery and local data governance
Mining & Energy	IoT edge computing and predictive analytics	Improved safety and operational efficiency
Healthcare	Secure electronic medical record (EMR) hosting and analytics	Reliable data access with strong compliance
Finance	Digital banking platforms and real-time payment systems	High availability, risk control, and regulatory alignment.
Education	Scalable e-learning and collaboration platforms	Accessible, cost-effective digital classrooms

Sustainability & Responsible Cloud

Orion™ Cloud is designed for sustainability. Every workload is optimized for efficiency and environmental responsibility. From carbon-aware scheduling to renewable energy integration, Synnect ensures the cloud contributes to Africa's green economy.

Sustainability features include:

- Renewable energy integration and green data centers
- AI-based power optimization for compute and cooling
- Lifecycle hardware recycling and reuse
- Transparent sustainability metrics and reporting dashboards

Why Orion™ Cloud

- **Built in Africa, for Africa** – ensuring local data control and compliance with national digital policies.
- **AI-Integrated** – powered by Synnect's Cognify™ AI for intelligent scaling, predictive insights, and operational transparency.
- **Secure and Compliant** – aligned with POPIA, GDPR, and ISO 27001 frameworks.
- **Future-Ready** – hybrid and edge-ready architecture enabling seamless scalability.
- **Consulting-Driven** – backed by Synnect's end-to-end cloud consulting, cybersecurity, and sustainability expertise.

Let's Build the Future with Orion™ Cloud

Empower your organization with Orion™ Cloud – the intelligent, sovereign foundation of Africa's digital transformation. From strategy to execution, Synnect delivers the expertise and infrastructure to make cloud adoption seamless, secure, and sustainable.
